

August 19, 2020

Dear Client:

Sincere greetings during these challenging times.

I am writing to share some leadership changes at CareVention HealthCare Integrated Technology Solutions. These include the retirement of Mace Wolf, and Mark Friedman.

Steve Wosje, COO, will transition to a new role as Senior VP of Product, where he will lead the CareVention HealthCare Product Team focused on EHR PACE Solutions. With his long history and background in PACE, and his understanding of the importance of client experience, we are delighted to have Steve in this new role.

We are pleased to announce that [Steve Lemak, MS](#), has joined TRHC in the role of Senior Vice President, Enterprise Technology Solutions, CareVention HealthCare Division. Steve is a well-known healthcare IT leader. Most recently, he served for nearly two decades as Executive Vice President of IT at Enclara Pharmacia, formerly excelleRx, a hospice pharmacy provider started by TRHC founders. Steve has the experience and expertise needed to advance CareVention HealthCare's EHR/Integrated Technology Solutions service line while maintaining our company's high standards for reliability and quality.

We would also like to take this opportunity to formally announce the hiring of Jacqueline Hylton, Vice President of Implementation Services and Sales. Jackie joined our team from RTZ Systems. She has worked in the PACE industry since 1998, including overseeing HIM/data management and the transition to patient electronic systems at one of the original twelve demonstration sites.

Finally, we are pleased to share the addition of Bob (Sully) Sullivan, TRHC's new Chief Technology Officer. Bob's 30-plus years of experience in IT operations, organizational transformations, and technology assessments will support the CareVention HealthCare EHR technology to continue to evolve, based on the changing needs of our clients, regulatory changes, and in support of optimized patient outcomes and provider workflow.

Please let me know if you have any questions.

Sincerely,

Stephanie Sessions, RN, BSN  
Vice President, Clinical Services and Customer Experience  
CareVention HealthCare  
EHR/Integrated Technology Solutions
